- Licensing International Engineers into the Profession (LIEP) Program
<http://learn.utoronto.ca/international-professionals/liep-program>

Licensing International Engineers into the Profession (LIEP) is a unique program that offers required professional engineering courses at the University of Toronto in lieu of PEO's Confirmatory Examination Program. In addition we offer preparation support for the Professional Practice Exam (PPE) and employment success support. Each applicant will receive a customized learning plan from the LIEP program staff.

Technical and Complementary Studies Courses

3 Technical Courses in either Civil, Mechanical or Electrical Engineering

1 Complementary studies

Professional Practice Exams (PPE)

PPE Preparation Course

For more information, please view our [LIEP Information Brochure](#).
